

**This hospital  
performs non-  
therapeutic  
circumcisions.**

**Healthy male  
infants are  
wounded by  
circumcision.**

# The AAP 2012 Circumcision Policy Statement ...

is used to  
justify offering  
circumcision to  
parents.

**The Policy  
Statement is an  
epistemological  
train wreck.**

**Let us look  
forward to the  
day when the  
management ...**

**of this hospital  
abandons non-  
therapeutic  
circumcision.**

**Until then, let  
us show them  
compassion.**

**“An eye for an  
eye makes the  
whole world  
blind.”**

**They must be  
captured by  
significant  
dilemmas.**

**Yet their choice  
creates a moral  
dilemma for all  
employees.**

**“Is my work  
here enabling  
non-therapeutic  
circumcision?”**

**In my view, this  
hospital is out of  
integrity on this  
issue.**
